Approved as an iCAP Provider since 2018

Overview

Achieve Virtual is a public high school within the Metropolitan School District of Wayne Township. The school district has an established history of quality online learning that dates back to 1999, with the initial creation of Indiana Online Academy. Achieve Virtual has been an established public virtual high school since 2011.

Achieve Virtual provides a unique experience for students through the use of teacher-developed, NCAA approved courses. All of the school's coursework is designed and taught by highly qualified, licensed Indiana educators. It is important to the staff of the M.S.D. of Wayne Township that all of our courses are designed by Indiana educators specifically for Indiana students.

This provider uses the following third-party content providers:

None

Drop Policy:

For all classes, students have 30 days after the date of being placed in the course to drop without penalty of failing grade and with refund unless the course is completed in that first 30 days. Completed courses are considered finalized with grades being transcribed back to students' sending school. Any non-completed course at the close of the semester does result in an "F" grade.
